

User-Friendly Design

Events and Documents, side by side.

As students navigate the calendar interface, links to related learning materials appear in real time.

Download documents one at a time, or as a bundle, with one click or tap.

Never miss new content.

A simplified notification system alerts students to new activity or messages.

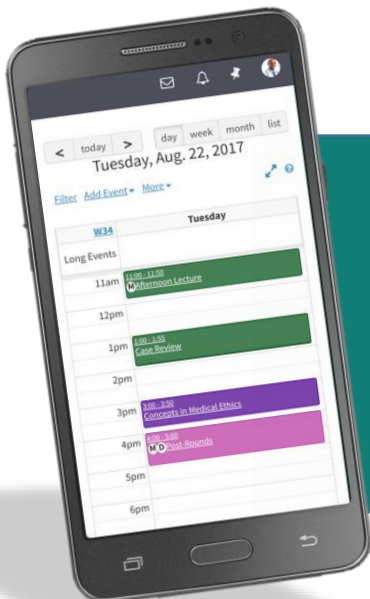

Manage the to-do list.

All of a student's new content organized in one simple activity list. Find new or updated materials, evaluations, exams, event changes, class discussions, lottery sign-ups, and more – organized and easy to find.
